

The Project

JPGers Rockin' The Trees at Clarian Arnett!By [adniloj](#)
23 September 2008

CONGRATULATIONS JPGers & a big Woo-hoo to many of you!

Winners in the 2nd contest for [Photos for Health](#) were permanently installed & an artist dedication ceremony October 12, 2008, at the Clarian Arnett facility in Lafayette, Indiana just a few days before the facility opened the doors to the public.

The interior for [Clarian Arnett](#) is designed to promote healing & celebrate life. Each floor of the hospital is representational of the 'Tree of Life', often depicted as the center of the universe consisting of a living, evolving organism with a spiritual & sacred nature. The winning compositions installed brought together this design in a beautiful way.

JPGer winning compositions are listed below promising smiles for years & years to come! Thank you to everyone supporting this project . . .
